

Introduction

Contributed by [Anne Stein](#)

Source: original

This haggadah is an attempt to put together something new and high tech all in one. In the past we have used many different types of haggadot. Many years ago I created a custom haggadah using excerpts from several different sources. The last few years we have supplemented a family friendly haggadah with video clips. This will have all of these in one place. I hope you enjoy the new format.
