

Let Us Go

(sung loosely to the tune of Let it Go)

The sand burns hot in the desert tonight

The foot prints of my people can be seen

A kingdom of subjugation under Pharaoh who is mean

Our people built his temples and pyramids to the sky

Oh dear lord hear our people's cry...

Let us go, let us go

Can't hold us back any more

Let us go, let us go.

Find someone else to do your chores

Elohim, adoni hear us pray,

Lets pack our things

The desert never bothered us anyway

It's funny how some distance

makes Egyptians all seems small and the masters that controlled us can't get to us at all

It's time to see what we can do

The power of a people who've broken through

Torah v emet the laws for me.

We're free.

Let us go, let us go.

We are one with the lord

Let us go, let us go.

We hope this Seder didn't make you bored

So here we'll sit and here we'll stay

Let the Seder go on

The Maror never bothers me anyway...
