Hello Guests. Thank you for joining us at our Passover seder. The theme of our Haggadah is poverty alleviation. We hope to inform you guys and connect our seder to the unfortunate people in poverty. Just like Jews that were in Egypt as slaves, people in poverty are slaves to their hunger everyday. Through action, lets try this year to help at least one impoverished person cross the red sea into fulfillment. We are so grateful to have this great seder on the table and we must help those in need have a meal on their dinner table every night as well.
