ERICA:

"I really don't know why it is that all of us are so committed to the sea, except I think it is because - in addition to the fact that the sea changes and the light changes, and ships change - it is because we all come from the sea. And it is an interesting biological fact that all of us have, in our veins the exact same percentage of salt in our blood that exists in the ocean, and therefore, we have salt in our blood, in our sweat, and in our tears. We are all salt water, tied to the ocean. And when we go back to the sea, we are going back from whence we came." - John Fitzgerald Kennedy
