

Four Children - Four Parents

Similar to the four types of children, there are four types of parents.

1. The Strict Parent-who is controlling and over protective of the child
2. The Careless Parent-who focuses more on their own needs instead of being there for the child
3. The Compassionate Parent-who loves the child unconditionally and supports everything they do
4. The Teaching Parent-who is not afraid to punish the child and teach them a greater lesson
