

Exodus Story - First Nine Plagues

Contributed by [Sondra Treasure](#)

Source:

First the water turned to blood! Second, frogs came up EVERYWHERE. Third all the people got LICE! In the fourth plague, wild animals and flies were everywhere. Number five, all the livestock got sick. Number 6, the people got horrible sores called boils. Eighth, locusts came and ate all the vegetation that was left. Finally, there was darkness for three days, and the sun did not shine in the sky at all.
