

# We'll Cross the Sea to the tune of "Under the Sea"

Contributed by [School of Adaptive Agriculture](#)

Source:

You think that we all are stuck here

You think that we have no choice

We work in the sand and muck here

But what if we raise our voice?

Just trust that our God will save us

And we can run far away

Where nobody will enslave us

So come with me, don't delay!

(Chorus)

We'll cross the sea

We'll cross the sea

Life will be better

They will get wetter

Than you and me

Back on this side we'll slave away

But over there we all can play

So if you dare-o

Run from this pharaoh

We'll cross the sea
