**Another world is  
not only possible,  
she is on her way.  
On a quiet day, I  
can hear her  
breathing.**

If you are able, please stand to light our candles - as we all light a candle, we can create our own pillar of guiding light.

Can we do a little reaching into the sky, and a little bit of breathing, to enact this sphere of light for our Seder?

As our candles are lit, and as the Kiddush is sung, let's think about where the light and the words can take us. What do we want to be wandering towards? What are we flying home to? What is home? What world are we on our way towards?
