THE FOUR QUESTIONS

LEADER *The Four Questions we ask at our Hunger Seder challenge us to consider what is different about this night. Only when we ask the right questions can we understand the causes of hunger and take action to end this unnecessary plight.*

1 ALL Why during this seder do we focus on hunger?

Hunger remains a painful physical reality for far too many of our friends, neighbors, and family members. Hunger is an oppressive force that holds individuals back from realizing their full potential in life and limits our society from making greater progress. The Passover seder celebrates liberation from bondage and the joy of freedom. But in communities across our country, millions of Americans struggle to put enough nutritious food on the table and are bound by the hardships of their circumstances. As long as Americans continue to struggle with food insecurity, we will continue to dedicate this Hunger Seder to the goal of ending hunger and its causes.
