### Ideas for Spicing Up Kiddush

-Have an empty cup in the middle. Have everyone add a little from their own cups to the middle cup. This cup then will be Elijah's cup, and everyone will have shared with Elijah from their own.

-Pour the wine or grape juice for each other, each person pouring for the person to their right, to give a sense of sharing and elegance.

-Have the younger participants pour everyone's glasses, playacting as if the adults are the Egyptians and the children are the Israelites serving them. For the second cup of wine, have the adults serve the children!
