

Schitt's Creek Karpas

Contributed by [Haggadot](#)

Karpas is an appetizer... a green leafy vegetable like a radish, a carrot or parsley. If you want to get creative, try a piece of potato, parsnip or other vegetable that at one time had a leaf and could pass for green. Maybe one of Twyla's famous green smoothies? Just remember, they can be digestively problematic and have not been tested for interactions with unleavened bread.
